

To our patients,

Recently, you may have received a letter from American Health Network announcing the transition of our practice to Hendricks Regional Health. As your family medicine team, we want to welcome you to the Hendricks family, as well as answer any questions you may have.

First and foremost, we are thankful for the privilege of being your family doctors and look forward to caring for you over many years to come. By joining Hendricks Regional Health, we are able to provide you an even stronger continuum of care with more access to health services right here in the Brownsburg and surrounding community. Our entire support staff has moved alongside us, providing a seamless transition for everyone.

Hendricks has had a longstanding healthcare presence in Brownsburg, having built its first facility here in 1998. Since that time, the organization has continued to add new medical services and providers to match the community's growing needs. As physicians, we want to be aligned with a hospital system that puts patients at the center of everything they do. We feel that Hendricks Regional Health is the right fit for our team and the patients we serve.

We are very excited to announce that our office, now called Brownsburg North Family Medicine, will be a practice in the new Brownsburg Medical Center opening in December at Interstate-74 and Ronald Reagan Parkway. The new facility will offer many services under one roof, including: side-by-side emergency department and immediate care center; inpatient capabilities; comprehensive women's center; lab services; radiology; mammography; rehabilitative services; and a variety of medical specialists. Until the end of the year, we will continue to care for you in our current office at 1080 North Green Street.

We understand that with this change, you may have questions about your care or current treatment. Please review the included Frequently Asked Questions sheet, and do not hesitate to call our office at **(317) 852-3851** for assistance.

We look forward to continuing to be your partner in good health.

Sincerely,

**DRS. DAVID BAIN, JASON COOPER, ELIZABETH WRIGHT AND NEIL ZLATNISKI**  
& the team of Brownsburg North Family Medicine
